## Paris Boy's Great Invention.

Frank O'Neill, Jr., a student of State College and son of Frank O'Neil, the well-known painter of this city, has patented a hemp breaking machine that is now making practical tests at the plant of the Paris Manufacturing Co., and they are giving general satisfaction to hemp raisers and dealers. This young genius designed this wonderful machine without the assistance of any one, and last winter made all the castings at the State College. The machine fills the place of a long felt want with our farmers, and the success of this bright young boy in his first invention puts him at once in the front ranks of great inventors.

## TOGO DELIVERS STAGGERING BLOW.

Most Tremendous Sea Battle of Modern History.

In the great naval battle fought Saturday and Sunday in the Straits of Korea the Japanese obtained a complete and overwhelming victory. Late advices show that Rojestvensky's fleet, composed of all of his most effective and powerful ships, was completely shattered.

According to the latest information two Russian battleships, one coast defense armor-clad ship, five cruisers, two special service ships and three destroyers were sunk, and there were captured two battleships, two coast defense armor-clad ships and one special service ship.

Admiral Rojestvensky's flagship escaped badly damaged, and with other ships of his broken fleet are being pursued by the victorious Japanese. Rear Admiral Nebogatoff, however, was captured with 3,000 prisoners.

It seems probable that in their crippled condition other Russian vessels will fall into the hands of the Japanese before they can reach Vladivostok, while London rumors say several Japanese vessels were lost.

Admiral Togo officially reports that his squadron was not damaged.

A number of Russian vessels still remain near Shanghai, but it is evident that the fighting force of the great fleet has been destroyed.

No details of the battle have yet been permitted to pass the Japanese censor, but Tokio dispatches make it clear that Admiral Togo is pressing his advantage and harassing the Russian vessels which are attempting to take refuge at Vladivostok and will make more complete his already sweeping victory.

## A Missionary Talk.

Dr. Mary L. Burnham, from the field of Chinanfu, China, and Missionary to the children in that country, was highly gratified on one occasion at what she considered a very complimentary remark from a little boy, who said she had made "a dandy talk." This opinion of her youthful admirer was voiced by a small but appreciative audience at the First Presbyterian Church last Thursday evening.

Her talk, as she called it herself, was in a straightforward, impressive and very attractive manner, giving descriptions of Chinese life in the home, school and in her hospital work. Dr. Burnham prepared herself for medical work at her home in Maine, and has been practicing in the McIlvaine Hospital at Chinanfu for the past seven years. Her talk Thursday night was the eighty-sixth since her arrival in this country last August.
